INFORMATION ABOUT TIMBER AND OUR PRODUCT BROCHURES.

Timber is a natural living element that will absorb and release water to balance out with the changing seasons of the environment. As such can be subject to movement and weathering in the changing seasons. Its common for splits and cracks to occur during drying and also warping of timber when it is allowed to dry too rapidly. This is a natural byproduct of timber and is not considered as a fault. We inform you of these natural causes to help with your judgement to use a timber product. We reserve the right to withdraw or change products details on any item in this publication at any time. All goods are sold per our terms & conditions of sale, Published on our website (www.hanworthtimber.co.uk).

All images are supplied by our suppliers and may change without notice. We have taken great care in providing the most accurate information as possible however with changing suppliers and other element not within our control we cannot be held liable for any changes in our product range that defect from our catalogue.
